104th Regiment GEOTRAIL PASSPORT

104th Regiment GEOTRAIL PASSPORT

A Very Canadian Story!

During the War of 1812, the winter of 1813 was one of extreme cold and heavy snows. Between February and April, the 104th Regiment of Foot marched more than 1100 kilometres from Fredericton, New Brunswick to Kingston, Ontario to reinforce British troops and thwart an expected invasion by the Americans. This effort by a regiment of poorly clothed, frostbitten and hungry soldiers stands as an incredible feat in military history. Special geocaches have been hidden at more than 30 sites along the St John River and around the Province of New Brunswick to commemorate this feat. Geocache locations depict a spot where New Brunswick's 104th manned a fort, a blockhouse or outpost or an individual connected to NB 104th. When you discover a geocache, record the location, date, and code in this passport. The first 200 people who find and record at least 15 geocaches will receive a beautiful, commemorative, trackable Geocoin.
